Recording at the time of Issue to a lower level - (A Last Cold Chain Point (CCP) issuing vaccine to the session sites or a District Store issuing to Cold Chain Point).

-Example: The CCP Shergarh issued 200 doses of DPT vaccine for a RI session of the same batch and manufacturing company on 9/3/2014 and at the end of the session received back a dose of 50 unopened doses. Thus the 'Net Utilisation' of DPT vaccine for that session day is 150 (200 - 50 = 150). Therefore details of 150 doses should be documented.
